

Municipal state-aid roads	M.S. 162.09 and MnDOT rules	Cities must comply with standards in order to receive reimbursement for funding for construction and maintenance of certain roads. These standards can result in overbuilding city streets. Many items, such as full signals, landscaping, pre-engineering, and certain legal costs are not eligible for compensation. The City does not oppose the intent of the mandate, but rather objects if it is unfunded or underfunded.
