Tax Filing Reports: Printing the Information for the Form 941/941E Report

The Information for Form 941/941E Report is designed to provide you the data to complete the quarterly 941 Form. This report should be printed and reviewed for accuracy before the Form 941 is prepared and sent. The information on this report should match the information on the Employee’s Earning Records for the checks issued during the quarter.

Note: If the information for the 941 is not correct, review the check date for each payroll period. Generally, if the 941 is incorrect, you will find a payroll period that does not have the correct check date. Edit the check date and the 941 should be correct. Instructions on editing the check date can be found on page 12-47 of this manual.
