INTRODUCTION

This Legal Compliance Audit Guide was prepared by the Office of the State Auditor pursuant to Minn. Stat. § 6.65, in consultation with representatives from the Attorney General's Office, towns, cities, counties, school districts, and private sector public accountants. This Legal Compliance Audit Guide establishes minimum compliance guidelines for verification by auditors engaged in the process of auditing school districts of the state.

This guide is divided into specific sections and presented in checklist form to assist the auditor of government units in the verification of statutory compliance. The guide is not meant to be a complete compilation of all laws affecting municipalities or a complete analysis of the laws cited throughout. The checklist is meant to act as a reference guide regarding minimum legal compliance, and municipal auditors must examine, in addition to applicable laws cited in the guide, those laws creating, granting power to, and restricting the municipal entities they are auditing.

Under each section, except for the initial question establishing the transaction covered by the topic heading and except where the explanation of a given question indicates otherwise, all questions should be answered in the affirmative. A negative answer indicates a compliance problem, and the user of the checklist is directed to the statutory section indicated on the left-hand side of the page. If after examination of the appropriate statute, the auditor using this audit guide is still unsure as to whether there has been legal compliance, he or she should check with legal counsel before rendering the opinion on compliance contained at the end of each section.

AUDITOR'S REPORTS ON COMPLIANCE

Chapter 6 contains model reports, one of which is to be completed by the auditor following his or her completion of the appropriate compliance sections.

These reports or the language from these reports must be issued as part of the audits of the school districts.

PREPARATION OF MINUTES

Auditing for legal compliance will require a review of the minutes of the governing body. In many instances, the minutes will be inadequate histories of the meetings involved. We have, therefore, deemed it appropriate to include below a discussion of minutes, so that in those instances where the minutes are substandard, auditors can provide a standard to assist clients in the future recording of meeting minutes.

Minutes may be defined as a record of the “proceedings” of a deliberative body. Various statutes that refer to taking or publishing minutes use the term “proceedings” or “official proceedings.” *See* Minn. Stat. §§ 384.09 (counties); 412.151, subd. 1 (statutory cities); 367.11(1) (towns); and 123B.09, subd. 10 (school districts). The Minnesota Attorney General has used the definition of “proceedings” found at Minn. Stat. § 331A.01, subd. 6, in analyzing the clerk’s duties to take minutes. This statute states:

“Proceedings” means the substance of all official actions taken by the governing body of a political subdivision at any regular or special meeting, and at minimum includes the subject matter of a motion, the persons making and seconding a motion, the roll call vote on a motion, the character of resolutions or ordinances offered, including a brief description of their subject matter, and whether defeated or adopted.

While minutes must specifically identify the actions taken by the body, they need not record the discussions of the members and others. At a minimum, the minutes must include the information required by Minn. Stat. ch. 13D [Minnesota Open Meeting Law], unless such information is recorded elsewhere. Minn. Stat. § 13D.01, subd. 4, provides:

The votes of the members of the state agency, board, commission, or department; or of the governing body, committee, subcommittee, board, department, or commission on an action taken in a meeting required by this section to be open to the public must be recorded in a journal or minutes. . . The vote of each member must be recorded on each appropriation of money, except for payments of judgments, claims, and amounts fixed by statute.

In addition, subd. 5 states, “[t]he journal or any minutes used to record votes of a meeting subject to this chapter must be open to the public during all normal business hours where records of the public body are kept.”

The above provision requires that the individual votes of each member of the governing body on “an action” be specifically recorded except for votes on “payments of judgments, claims, and amounts fixed by statute.”

Having satisfied minimum requirements, the question of how elaborate and extensive the minutes should be is largely a policy matter for determination by the particular body in the exercise of reasonable judgment and discretion. The Attorney General has explained:

...there may be circumstances in which it would be advisable for the town board to provide for the minutes to include information over and above what is necessary to satisfy minimum statutory requirements for a record of its official actions.

Op. Atty. Gen. 851-C, March 5, 1992. For example, the board’s reasons for reaching a particular decision could be crucial in defending a challenge to the action taken. The inclusion of such information may be deemed appropriate under other circumstances, such as where the body determines that the public interest warrants the award of a particular contract to a bidder other than the lowest bidder.

In any case, the amount of detail which is appropriate for inclusion in the minutes of a particular body is likely to vary, depending upon the nature of the proceedings and the subject matter involved.

While the minutes of a governing body should attempt to furnish relevant information over and above bare minimum requirements, they should not, at the same time, be cluttered with unnecessary detail which hampers efforts to review or otherwise utilize them at a later date. Perhaps the best standard to be applied to the preparation of minutes is the one applied by the courts to the publication of official proceedings, i.e., the minutes should be “sufficiently full to fairly set forth the proceedings.” *Ketterer v. Indep. Sch. Dist. No. 1*, 79 N.W.2d 428, 438 (Minn. 1956); *See* Op. Atty. Gen. 161-a-20, Dec. 17, 1970.

DESTRUCTION OF RECORDS

Minnesota Statutes § 15.17, subd. 1, requires all officers and agencies of the state, counties, cities, towns, school districts, municipal subdivisions or corporations, and other public authorities or political entities within the state to make and preserve all records necessary for “a full and accurate knowledge of their official activities.” The chief administrative officer is responsible for the preservation and care of the agency’s government records, which include all “written or printed books, papers, letters, contracts, documents, maps, plans, computer-based data, and other records made or received pursuant to law or in connection with the transaction of public business.” Minn. Stat. § 15.17, subd. 2. This duty not only prohibits destruction, but requires the custodian to take such steps as are necessary to protect public records from deterioration, mutilation, loss, or destruction. This statute also requires that all records must be delivered to the legal custodian’s successor upon expiration of the term of office or authority. Minn. Stat. § 15.17, subd. 3. Additional provisions regarding data practices are found in the Minnesota Government Data Practices Act, Minn. Stat., ch. 13.

For political subdivisions having problems with the storage of obsolete records, Minn. Stat. §§ 138.163-.25 provide relief. Any person who intentionally and unlawfully removes, mutilates, destroys, conceals, alters, defaces or obliterates a public record is guilty of a misdemeanor. Minn. Stat. § 138.225.

Unless a municipality adopts a records retention schedule (and notifies the Minnesota Historical Society), it may not destroy public records without the permission of the records disposition panel. Applications may be made to the State Archives Department for such permission. For instance, bids with supporting documents received by a school district must be kept forever, unless the school district (1) adopts the General Records Retention Schedule for School Districts, in which case, the school district must maintain these records for the specified period, (2) adopts its own properly approved records retention schedule, or (3) receives authority to dispose of the records from the records disposition panel.

A school district that wishes to adopt the appropriate General Records Retention Schedule can find information on the [State Archives website](#).

LEGAL COMPLIANCE AUDIT GUIDE

DEPOSITORIES OF PUBLIC FUNDS AND PUBLIC INVESTMENTS

Introduction

A government entity that receives and disburses funds may deposit the funds only in financial institutions designated by its governing body. The governing body may authorize its treasurer or chief financial officer to make such designations. The government entity may deposit funds in amounts that are federally insured or, if it deposits more than this amount, it must either have the depository furnish a bond or assign collateral to protect the excess deposit.

“Government entity” for the purpose of this section includes school districts:

Minn. Stat. § 118A.01, subd. 2. This section does not apply to entities whose investment authority is specified under Minn. Stat. ch. 11A (Investment of State and Pension Assets), or 356A (Public Pension Fiduciary Responsibility). *Id.*

“Public funds” for the purpose of this section means all general, special, permanent, trust, or other funds, regardless of source or purpose, held or administered by a government entity, unless otherwise restricted. Minn. Stat. § 118A.01, subd. 4.

When auditing a school district, complete this section to determine if the school district has properly invested its funds or deposited its funds in a properly designated depository with appropriate collateral or bond.

OPEB Trusts - The assets of a trust created to pay postemployment benefits (giving rise to a liability under GASB Stmt. 45) to employees or officers after their termination of service shall be invested and held as provided in Minn. Stat. § 471.6175.

Part I. Designation of Depository				
§ 118A.02, subd. 1	A. In the case of a school district:			
	1. Has each depository of public funds been designated by the government entity's governing body, or by its treasurer or chief financial officer, if the governing body has authorized them to make such a designation?			
§ 118A.01, subd. 3	2. Is each depository one of the following:			
	a. a savings association;			
	b. a commercial bank;			
	c. a trust company;			
	d. a credit union; or			
	e. an industrial loan and thrift company?			

Part II. Insuring or Securing Deposits				
§ 118A.03	A. If a school district desires to deposit an amount in excess of deposit insurance, it must obtain a bond or collateral which, when computed at its market value, shall be at least ten percent more than the amount of the excess deposit at the close of the banking day. For the purpose of this section, "banking day" has the meaning given in Federal Reserve Board Regulation CC, 12 C.F.R. § 229.2(f), and incorporates a financial institution's cutoff hour established under Minn. Stat. § 336.4-108. If irrevocable standby letters of credit from Federal Home Loan Banks are used as collateral, the amount must be equal to the amount of the excess deposit at the close of the banking day.			
	B. Review the following general principles of FDIC coverage and complete the spread sheet in this section to determine the amount of the school district's funds that is not insured and thus need to be either bonded or collateralized. Deposits held by credit unions are covered by separate deposit insurance rules promulgated by the National Credit Union Administration (NCUA).			
	General Principles of FDIC coverage: <ol style="list-style-type: none"> Deposits are insured only if the depository is a member of FDIC. Deposits in one depository are insured separately from deposits in another depository which is not a branch of the first one. However, a depository and all of the branches associated with it are treated as a single combined depository, and the funds deposited in the branches are aggregated for purposes of insurance coverage. 			

Minn. Stat. Section	DEPOSITORIES OF PUBLIC FUNDS AND PUBLIC INVESTMENTS	Yes	No	Workpaper Reference
	<p>3. The aggregate of a government entity's time/savings accounts, i.e., savings accounts, NOW accounts, and time deposits (CDs), with the same depository are insured up to a total of \$250,000. The aggregate of a government entity's demand accounts, i.e., non-interest and interest-bearing checking accounts, are insured up to a total of \$250,000 and are insured separately from the government entity's time/savings deposits. This separate \$250,000 coverage for demand and time/savings accounts only applies if the depository is in the same state as the government entity.</p> <p>4. A public authority, public corporation, public commission, or special district receives separate insurance coverage from its parent government entity only if its creation is expressly authorized by state statute, government functions have been delegated to it by law, and funds have been allocated for its exclusive use and control. Subordinate or non-autonomous divisions, agencies, or boards do not receive separate insurance coverage.</p> <p>5. Funds held for a special purpose and required by law to be paid to bondholders or beneficiaries such as members of pension funds or relief associations are covered up to \$250,000 per bondholder or beneficiary whether the beneficial interest is vested or not. The fiduciary nature must be indicated on the account name in the bank's records.</p> <p>6. If more than one person is legal or official custodian of funds for a government entity, each custodian having plenary authority (including control) over the funds is separately insured up to \$250,000. Also, if the same person is the custodian of funds for two separate government entities, the funds for the two government entities are separately insured.</p> <p>7. Moneys held by a government entity in trust are insured separately from other government entity funds only <u>if</u> the trust is linked to a written trust agreement, court order or statute, the owner does not retain an interest in the use of the assets, and the interests of beneficiaries are ascertainable and not contingent.</p>			
	C. Was collateral coverage sufficient? (Answer after completing the spreadsheet on page 1-11.)			

Part III. The Bond and Collateral

§ 118A.03, subd. 4	4.	Was the collateral assignment in writing?				
	5.	Did the assignment provide that, upon default, the depository shall release the collateral pledged to the government entity on demand, free of exchange or other charges?				
§ 118A.03, subd. 3	C.	Collateral pledged must equal at least ten percent more than the uninsured and unbonded amount on deposit at the close of the banking day. If irrevocable standby letters of credit from Federal Home Loan Banks are used, the amount must be equal to the amount of the excess deposit at the close of the banking day. The depository may, at its discretion, furnish both a bond and collateral aggregating the required amount. For the purpose of this section, "banking day" has the meaning given in Federal Reserve Board Regulation CC, 12 C.F.R. § 229.2(f), and incorporates a financial institution's cutoff hour established under Minn. Stat. § 336.4-108.				
	1.	If a bond was obtained or standby letters of credit from Federal Home Loan Banks were pledged, was the amount of excess deposit at the close of the banking day (as defined above) equal to or less than the amount of the bond or standby letters of credit?				
	2.	If other collateral was pledged, was the amount of collateral at least ten percent more than the uninsured amount on deposit at the close of the banking day?

CONFLICTS OF INTEREST

Introduction

Rule: A public officer authorized to take part in the making of a sale, lease, or contract shall not voluntarily have a personal financial interest in the transaction or personally benefit financially from it. Minn. Stat. § 471.87. The following persons are specifically forbidden from having any interest in any contract made by their respective governing bodies:

1. elected officers;
2. town supervisors and town board members;
3. county officials, county deputies, county clerks, and employees of such officials; or
4. school board members.

Exceptions: For practical reasons, the legislature has created certain limited exceptions to the general prohibition. Exceptions apply to port authorities, seaway port authorities, economic development authorities, watershed districts, soil and water conservation districts, towns, school districts, hospital districts, counties and cities. Minn. Stat. § 471.88. Part I of this questionnaire will assist you in making a determination as to whether an otherwise forbidden transaction fits within any of the statutory exceptions. Care should be taken to determine whether any exception considered applies to the entity and contract being audited.

For the purposes of this checklist, “interested officer” shall mean a public officer or employee, as listed above, who directly or through his or her spouse (see “Discussion” below) has a prohibited position or interest in either the entity making or the subject matter of the sale, lease, or contract with the governing body. Examples include:

1. officer;
2. director;
3. employee (see “Discussion” below);
4. partner;
5. owner (complete or partial); or
6. shareholder.

Discussion: The determination as to whether a particular transaction involves an “interested officer” often calls for a judgment on the part of the auditor. A helpful concept to remember for analysis is that it is a conflict of interest to be on both sides of a contract or transaction.

Most problems in this regard arise in the examination of the “interest” the public officer has in the person or entity making the contract with the governing body. Two frequent problem areas are:

1. Contracts with Officer’s or Employee’s Spouse or Family Member.

It is not a conflict of interest per se for a governing body to contract or otherwise economically transact with a member officer’s spouse or family member. However, if the facts indicate an economic benefit to the member officer as a result of the contract or transaction, a conflict of interest exists. For example, if a husband and wife, one of whom is a public officer, share a common pool of funds and likewise share debts, conflicts may exist because there is benefit to the public officer or employee flowing from the economic benefit to his or her spouse. Likewise, if a governmental officer or employee and his or her spouse, in fact, do not economically benefit from each other, a conflict may not exist. This analysis would apply to all familial relationships. The auditor will need to factually determine whether an emancipated child living away from home has a financial interest with his or her parents.

A provision regarding employee contracts involving spouses of school board members was enacted in 2008. See Minn. Stat. § 471.88, subd. 21.

2. Contracts with Companies in Which the Officer is an Employee.

If the involved governmental officer or employee is simply a company employee without managerial powers and receives the same salary or raise regardless of the company’s contract with the governing body, there probably is no conflict of interest. However, if said officer receives a bonus or commission or other benefit as a result of the contractual transaction between his or her company and the government entity, there is definitely a conflict of interest.

There are numerous aspects to be examined by the auditor in order to understand the totality of interests involved in a given contract or transaction between the governing body and an entity or person with a relationship to a member officer.

If, after review of the facts and applicable statutes, you are still unsure as to whether a particular set of circumstances constitutes a conflict of interest, you should contact an attorney for advice prior to preparing the “Audit Conclusion” at the end of this audit guide section.

Introduction

The power of a government unit to incur indebtedness is governed by statutory and home rule charter provisions. Statutory provisions vary depending on the type of government unit involved.

Each type of borrowing instrument may also be governed by different statutes. Therefore, it is essential that the auditor examine the specific statutes or charter provisions that are applicable to the particular borrowing transaction.

This questionnaire is intended only to highlight certain general provisions of the Minnesota statutes relating to indebtedness and is not intended to cover all questions that may be pertinent.

CONTRACTING - BID LAWS**

LEGAL COMPLIANCE AUDIT GUIDE

CONTRACTING - BID LAWS

Introduction

A school district entering into an agreement for the sale or purchase of supplies, materials, equipment or the rental thereof, or the construction, alteration, repair or maintenance of real or personal property must abide by the statutes relating to contracting and bidding. In addition, for counties, such statutory requirements also apply to contracts for “work or labor.”

Complete the questionnaire to determine if the school district conformed to the contracting and bidding statutes.

Minn. Stat. § 471.345, the Uniform Municipal Contracting Law, was established to provide dollar limits for all municipalities upon contracts which shall or may be entered into on the basis of competitive bids, quotations, or purchase or sale in the open market. Vendors may now submit bids, quotations, and proposals electronically in a form and manner required by the municipality. Minn. Stat. § 471.345, subd. 18. Generally, the following thresholds apply:

1. For contracts over \$175,000 – sealed bids, solicited by public notice and subject to the particular requirements of the governmental subdivision.
2. For contracts from \$25,000 to \$175,000 – sealed bids or direct negotiation, with two quotations whenever possible.
3. For contracts of \$25,000 or less – open market or quotations (with at least two contract quotations, if practicable).

In addition, Minn. Stat. § 471.345, subds. 16 and 17, allow school districts to purchase supplies, materials, and equipment using an electronic reverse auction process; and to sell supplies, materials, and equipment which is surplus, obsolete, or unused using an electronic selling process.

Best value procurement is a process based on competitive proposals (as an alternative to bids) that awards the contract to “the vendor or contractor offering the best value, taking into account the specifications of the request for proposals, the price and performance criteria as set forth in Minn. Stat. § 16C.28, subd. 1b, and described in the solicitation document.” Minn. Stat. § 16C.28, subd. 1(a)(2). Before administering best value procurement procedures, personnel must be trained in the best value RFP process. *See* Minn. Stat. § 16C.28, subd. 1d.

Another alternative to bidding is the “construction manager at risk” contract available for contracts for construction, alteration, repair, or maintenance work. The process of selection of a construction manager at risk as well as the requirements of a construction manager at risk contract are set forth in Minn. Stat. § 471.463.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Independent Auditor's Report

(School Board)
(School District)

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of (*list related opinion units*) of (*district name*) as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated _____.

Internal Control Over Financial Reporting*

In planning and performing our audit of the financial statements, we considered (*district name*)'s internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit the attention of those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether *(district name)*'s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Minnesota Legal Compliance

In connection with our audit, nothing came to our attention that caused us to believe that *(district name)* failed to comply with the provisions of the contracting – bid laws, depositories of public funds and public investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions, and uniform financial accounting and reporting standards for Minnesota school districts (UFARS) *(delete sections not required to test)* sections of the *Minnesota Legal Compliance Audit Guide for School Districts*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the District's noncompliance with the above referenced provisions, insofar as they relate to accounting matters.***

[District Name]'s Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the *(district name)*'s response to the internal control and legal compliance findings *(adjust as necessary for what they responded to)* identified in our audit and described in the accompanying *(name of report where the responses/corrective action plans are included)*. The District's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

[Leave out if no findings and no responses are included.]

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the provisions of the *Minnesota Legal Compliance Audit Guide for School Districts* and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance. Accordingly, this communication is not suitable for any other purpose.

*Paragraphs to be used when no significant deficiencies or material weaknesses are identified.

- If significant deficiencies, but no material weaknesses, are identified, use the following wording:

In planning and performing our audit of the financial statements, we considered (*district name*)'s internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit the attention of those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit, we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. We identified certain deficiencies (**a deficiency**) in internal control over financial reporting, described in the accompanying (*schedule name where findings are listed*) as items (*list related finding numbers*) that we consider to be significant deficiencies (**a significant deficiency**).

- If material weaknesses and no significant deficiencies are identified, use the following wording:

In planning and performing our audit of the financial statements, we considered (*district name*)’s internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District’s internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the District’s financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit the attention of those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified certain deficiencies (**a deficiency**) in internal control over financial reporting, described in the accompanying (*schedule name where findings are listed*) as items (*list related finding numbers*), that we consider to be material weaknesses (**a material weakness**).

- If material weaknesses and significant deficiencies are identified, use the following wording:

In planning and performing our audit of the financial statements, we considered (*district name*)’s internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District’s internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying (*schedule name where findings are listed*), we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses (**a material weakness**) and significant deficiencies (**a significant deficiency**).

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies (**deficiency**) described in the accompanying (*schedule name where findings are listed*) as items (*list related finding numbers*) to be material weaknesses (**a material weakness**).

A significant deficiency is a deficiency, or combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies (**deficiency**) described in the accompanying (*schedule name where findings are listed*) as items (*list related finding numbers*) to be significant deficiencies (**a significant deficiency**).

******Paragraph to be used when there are no reportable instances of noncompliance or other matters.

- If instances of noncompliance are reported, use the following wording:

As part of obtaining reasonable assurance about whether (*district name*)'s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*, and which are described in the accompanying (*schedule name where findings are listed*) as items (*list related finding numbers*).

*******Paragraph when there are no legal compliance findings.

- If legal compliance findings are reported, use the following wording:

In connection with our audit, we noted that (*district name*) failed to comply with provisions of the (*list section titles of guide in which noncompliance was identified*) of the *Minnesota Legal Compliance Audit Guide for School Districts*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65, insofar as they relate to accounting matters as described in the (*schedule name where findings are listed*) as items (*list related finding reference numbers*). Also, in connection with our audit, nothing came to our attention that caused us to believe that (*district name*) failed to comply with the provisions of the contracting – bid laws, depositories of public funds and public investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions, and uniform financial accounting and reporting standards for Minnesota school districts (UFARS) (*delete sections not required to test & delete any section titles that identified reported findings*) sections of the *Minnesota Legal Compliance Audit Guide for School Districts*, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the District's noncompliance with the above referenced provisions, insofar as they relate to accounting matters.

LEGAL COMPLIANCE AUDIT GUIDE

UNIFORM FINANCIAL ACCOUNTING AND REPORTING STANDARDS (UFARS) FOR MINNESOTA SCHOOL DISTRICTS AND CHARTER SCHOOLS

Introduction

Minnesota law requires that the audits of all school districts, all governmental units formed by joint powers agreements entered into by school districts, and all service cooperatives and education districts must include a determination of compliance with uniform financial accounting and reporting standards (UFARS). Minn. Stat. §§ 6.65; 123B.77, subd. 3. This requirement applies to charter schools under Minn. Stat. § 124E.16, subd. 1(a).

Minn. Stat. § 6.65 states (emphasis added):

The state auditor shall prescribe minimum procedures and the audit scope for auditing the books, records, accounts, and affairs of political subdivisions in Minnesota. The minimum scope for audits of all political subdivisions must include financial and legal compliance audits. Audits of all school districts must include a determination of compliance with uniform financial accounting and reporting standards. The state auditor shall promulgate an audit guide for legal compliance audits, in consultation with representatives of the state auditor, the attorney general, towns, cities, counties, school districts, and private sector public accountants.

Minn. Stat. § 123B.77, subd. 3, states (emphasis added):

By November 30 of the calendar year of the submission of the unaudited financial data, the district must provide to the commissioner audited financial data for the preceding fiscal year. The audit must be conducted in compliance with generally accepted governmental auditing standards, the federal Single Audit Act, and the Minnesota legal compliance guide issued by the Office of the State Auditor. An audited financial statement prepared in a form which will allow comparison with and correction of material differences in the unaudited financial data shall be submitted to the commissioner and the state auditor by December 31. The audited financial statement must also provide a statement of assurance pertaining to uniform financial accounting and reporting standards compliance and a copy of the management letter submitted to the district by the school district's auditor.

Uniform Financial Accounting and Reporting Standards (UFARS)

The uniform financial accounting and reporting standards to be used by school districts for automated state reporting purposes are described in the [UFARS Manual](#) and in School Business Bulletins issued by the Minnesota Department of Education. The UFARS Manual and School Business Bulletins provide an account code structure and guidance on application of accounting principles. At any point in time, parts of the UFARS Manual may have been superseded by legislative, program, and accounting principle changes. The School Business Bulletins serve as updates to the UFARS Manual for such changes. It is the auditor's responsibility to stay abreast of current developments.

UFARS Compliance

In order to determine compliance with UFARS, the auditor should consider the following items.

Account Coding

Conformance with UFARS includes the classification of revenues and expenditures into appropriate UFARS codes. UFARS revenue and expenditure codes consist of 17 digits organized into six dimensions. Chapter Ten of the [UFARS Manual](#) defines how the six dimensions may be combined into valid 17-digit codes for state reporting purposes.

1. Revenue and expenditure account codes that have been developed by school districts for their internal use must be linked (crosswalked) to the appropriate 17-digit UFARS codes. In some cases, the internal district code bears little resemblance to the UFARS code. The underlying UFARS codes, not the district codes, are used for automated reporting to the state.
2. Audit procedures should be developed to ensure that revenues and expenditures have been recorded in the proper UFARS codes.
 - A. Such procedures must include tests of controls as identified in and where required by the American Institute of Certified Public Accountants (AICPA) Statement of Auditing Standards – Clarity, Section AU-C 330, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*. The procedures developed should be in response to assessed risks identified pursuant to Section AU-C 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*. Sampling may be used to determine the reasonableness of recorded UFARS amounts and classifications based on examination of source documentation.
 - B. Such audit procedures may include the following:
 - Verify appropriate UFARS coding as part of a test of transactions (individual revenue and expenditure transactions).
 - Test linkage (crosswalk) of internal use account codes to the appropriate 17-digit UFARS codes.
 - Review the “UFARS Turnaround Edit Report” for errors. (To access the report, select “Minnesota Funding Reports (MFR)” at: <https://public.education.mn.gov/MDEAnalytics/DataTopic.jsp?TOPICID=9>, then use the drop downs.)
 - Verify appropriate UFARS coding as part of testing of revenue and expenditure account totals for the year.
 - Other tests that are considered necessary.

Auditors should use their judgment in determining the nature, timing, and extent of testing necessary to provide a statement of assurance pertaining to UFARS compliance.

Audit Reporting

The Auditor's Report on Compliance should indicate that the audit was conducted to determine conformance with UFARS standards. Chapter Six of this audit guide includes suggested wording for Auditor's Reports on Compliance.
