of the State Auditor*

February 17, 2016

This special E-Update is to announce the launch of the State Auditor's Infrastructure Stress Transparency Tool.

The interactive tool, located on the Office of the State Auditor's website, gives users access to a series of comprehensive maps of civil infrastructure statewide. The maps are a one-stop shop for civil infrastructure information.

The maps visualize existing city data including wastewater data from the Minnesota Pollution Control Agency, drinking water data collected by the Minnesota Department of Health, and financial data on water and sewer enterprise funds reported to the Office of the State Auditor.

The State Auditor's Infrastructure Stress Transparency Tool can be viewed on the Office of the State Auditor website. It can be accessed directly at:
