MANAGEMENT AND COMPLIANCE REPORT

DULUTH ECONOMIC DEVELOPMENT AUTHORITY
DULUTH, MINNESOTA

YEAR ENDED DECEMBER 31, 2010

Description of the Office of the State Auditor

The mission of the Office of the State Auditor is to oversee local government finances for Minnesota taxpayers by helping to ensure financial integrity and accountability in local governmental financial activities.

Through financial, compliance, and special audits, the State Auditor oversees and ensures that local government funds are used for the purposes intended by law and that local governments hold themselves to the highest standards of financial accountability.

The State Auditor performs approximately 160 financial and compliance audits per year and has oversight responsibilities for over 3,300 local units of government throughout the state. The office currently maintains five divisions:

Audit Practice - conducts financial and legal compliance audits of local governments;

Government Information - collects and analyzes financial information for cities, towns, counties, and special districts;

Legal/Special Investigations - provides legal analysis and counsel to the Office and responds to outside inquiries about Minnesota local government law; as well as investigates allegations of misfeasance, malfeasance, and nonfeasance in local government;

Pension - monitors investment, financial, and actuarial reporting for approximately 730 public pension funds; and

Tax Increment Financing - promotes compliance and accountability in local governments' use of tax increment financing through financial and compliance audits.

The State Auditor serves on the State Executive Council, State Board of Investment, Land Exchange Board, Public Employees Retirement Association Board, Minnesota Housing Finance Agency, and the Rural Finance Authority Board.

FOR THE YEAR ENDED DECEMBER 31, 2010**

I. FINDINGS RELATED TO FINANCIAL STATEMENTS AUDITED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

None.

II. ITEM FOR CONSIDERATION

GASB Statement 54

The Governmental Accounting Standards Board's (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, is effective for the Duluth Economic Development Authority for the year ending December 31, 2011. The standard's objectives are to enhance the usefulness of fund balance information included in the financial report through clearer fund balance classifications that can be consistently applied and to clarify existing governmental fund type definitions.

Fund Balance Reporting

Statement 54 establishes new fund balance classifications based on constraints imposed on how resources can be spent. The existing components of fund balance are reserved, unreserved-designated, and unreserved-undesignated. Statement 54 replaces these components with nonspendable, restricted, committed, assigned, and unassigned as defined below:

- *Nonspendable* - amounts that cannot be spent because they are either not in spendable form (for example, inventory or prepaid items) or legally or contractually required to be maintained intact (such as the corpus of a permanent fund).
- *Restricted* - amounts that can be spent only for specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
- *Committed* - amounts that can be used only for specific purposes determined by a formal action of a government's highest level of decision-making authority.

- *Assigned* - amounts a government intends to use for a specific purpose that do not meet the criteria to be classified as restricted or committed.
- *Unassigned* - spendable amounts not contained in the other classifications.

The Duluth Economic Development Authority should begin the process for implementing the new fund balance classifications. A key step in successfully implementing the new fund balance requirements is to plan ahead. The Authority can start with the following steps:

- review the requirements of GASB Statement 54;
- review current fund balances and compare to the new classifications;
- reclassify January 1, 2011, fund balance using the new classifications;
- review/update/prepare a comprehensive fund balance policy;
- prepare appropriate Board resolutions to commit fund balance; and
- if the Board of Commissioners intend to delegate authority to assign fund balance, prepare the resolutions delegating that authority.

Governmental Fund Type Definitions

The definitions of the general fund, special revenue fund type, capital projects fund type, debt service fund type, and permanent fund type are clarified in the new standard. The new definition for a special revenue fund could have significant impact on the Authority's current fund classifications.

GASB Statement 54 provides a new and clearer description of when it is appropriate to account for an activity using a special revenue fund. Special revenue funds are used to report specific revenue sources restricted or committed to specified purposes other than debt service and capital projects, where the restricted or committed revenue sources comprise a substantial portion of the fund's resources, and are expected to continue to do so in the future. The standard does not define substantial portion; however, most recommendations are generally that the restricted or committed revenues should comprise at least 35 to 50 percent of total fund revenues. Under this definition, it is possible that some current special revenue funds will no longer meet the requirements for special revenue fund treatment. The Authority's management should review the Authority's special revenue funds to ensure these funds continue to warrant treatment as special revenue funds.

The Authority's management should perform the following steps prior to December 31, 2011:

- prepare a list of the Authority's special revenue funds;
- determine the sources of revenues for each of those funds;
- identify whether any of those revenues are restricted or committed;
- determine if these restricted or committed revenues represent a substantial portion of the fund's revenues and are expected to continue to be a substantial source of revenues;
 - if yes, the fund may continue to be classified as a special revenue fund;
 - if not, determine whether the Authority will combine that fund with the general fund or with a similar purpose special revenue fund that meets the new definition;
- code revenues in the general ledger by source constraints--restricted, committed, assigned, or unassigned; and
- determine if there needs to be a restatement of beginning fund balances.

Additional implementation steps could include: informing any component units that they also will need to meet the requirements; deciding on how fund balance will be presented in the financials, for example, detailed vs. aggregate methods; and developing the potential note disclosures. Additional guidance on GASB Statement 54 can be found on the Office of the State Auditor's website at:

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Commissioners
Duluth Economic Development Authority

We have audited the financial statements of the City of Duluth, which includes the financial statements of the Duluth Economic Development Authority as supplementary information, as of and for the year ended December 31, 2010, and have issued our report thereon dated June 24, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Duluth Economic Development Authority's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the City's financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the Authority's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Duluth Economic Development Authority's financial statements are free of material misstatement in relation to the City of Duluth's financial statements, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Minnesota Legal Compliance

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the provisions of the *Minnesota Legal Compliance Audit Guide for Political Subdivisions*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65. Accordingly, the audit included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

The *Minnesota Legal Compliance Audit Guide for Political Subdivisions* contains seven categories of compliance to be tested: contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions, and tax increment financing. The listed categories were tested in conjunction with the audit of the financial statements of the City of Duluth.

This report is intended solely for the information and use of the Board of Commissioners and management and is not intended to be, and should not be, used by anyone other than those specified parties.
