Local Government Lobbying in 1998

Summary of 1998 Local Government Lobbying Expenditures

In 1998, local governments expended an estimated \$3,602,265 in direct and indirect lobbying expenditures as reported to the Office of the state Auditor (hereinafter referred to as “OSA”). This represents a decrease of \$155,913 or 4.3 percent from the amount expended in 1997. Lobbying expenditures generally decrease during even-numbered years when the legislature is not setting the biennial budget.

Thirty-five local governments expended a total of \$2,260,052 in direct lobbying expenditures in 1998. This was \$146,749 more than in 1997. A direct lobbying expenditure is the amount paid to a local government employee or a contract lobbyist for the purpose of lobbying the legislature or state administrative agency. Direct lobbying expenditures do not include dues and membership fees paid to local government organizations.

In addition to the \$2.3 million in direct lobbying expenditures, local governments paid dues of \$5,488,216 in 1998 to associations that represented their interests before the legislature. Of the \$5.5 million in dues paid to these associations, \$1,342,213 was expended on lobbying activities.¹ These expenditures are considered indirect lobbying costs. In 1997, local governments paid association dues of \$5,783,618, of which \$1,644,875 was expended on lobbying activities.

Direct Lobbying Expenditures of Minnesota Local Governments

Thirty-five of Minnesota’s cities, counties, school districts, and metropolitan agencies opted to directly employ staff and/or contract with professional lobbyists to represent their interests before the legislature.

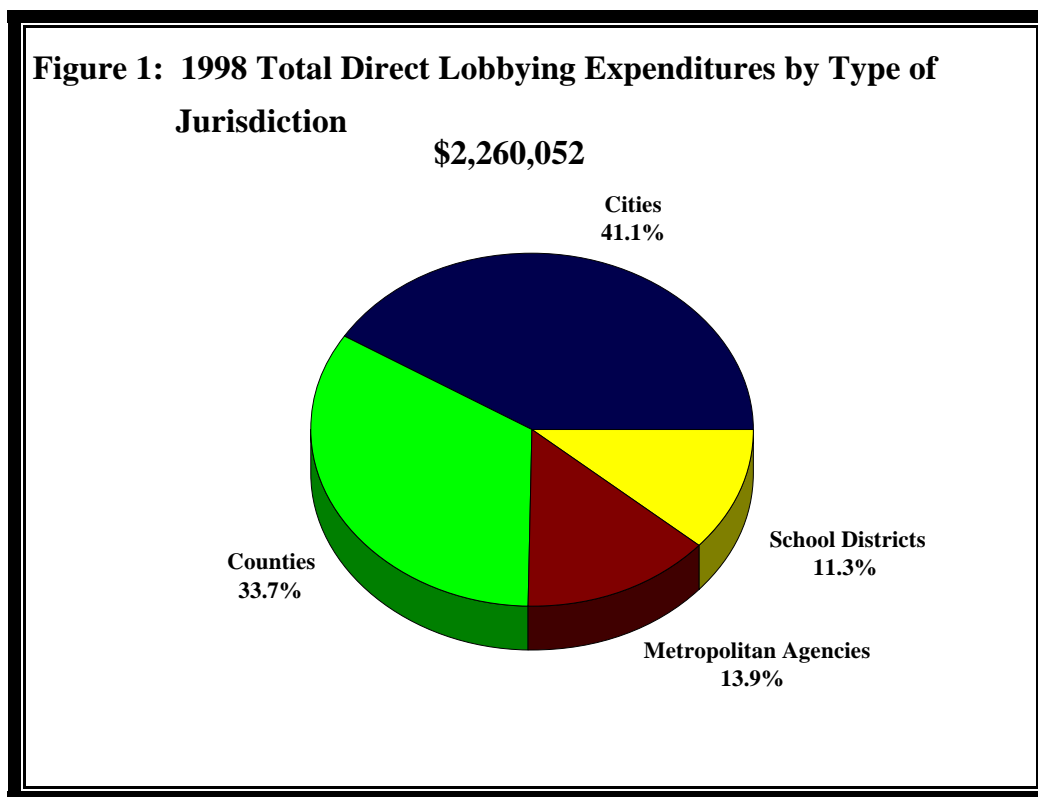

- ! Seventeen cities or city component units² reported a combined total of \$929,943 in direct lobbying expenditures;
- ! Ten counties or county component units reported a combined total of \$761,630 in direct lobbying expenditures;
- ! Four school districts reported a combined total of \$254,850 in direct lobbying expenditures; and,

¹ In this portion of the analysis, the discussion centers on lobbying expenditures funded exclusively through member dues. Several associations reported that they had other sources of funding that helped support their lobbying activities.

² Component units include park and recreation boards, regional railroad authorities, and other similarly affiliated entities.

! Four metropolitan agencies reported a combined total of \$313,629 in direct lobbying expenditures.

Figure 1 shows 1998 total direct lobbying expenditures by type of jurisdiction.

Local Governments With the Highest Direct Lobbying Costs

Five of the 35 local governments with direct lobbying expenditures reported over \$100,000 in lobbying expenditures, for a combined total of \$996,504. These five local governments accounted for 44.1 percent of the total direct local government lobbying expenditures in 1998. The five local governments are:

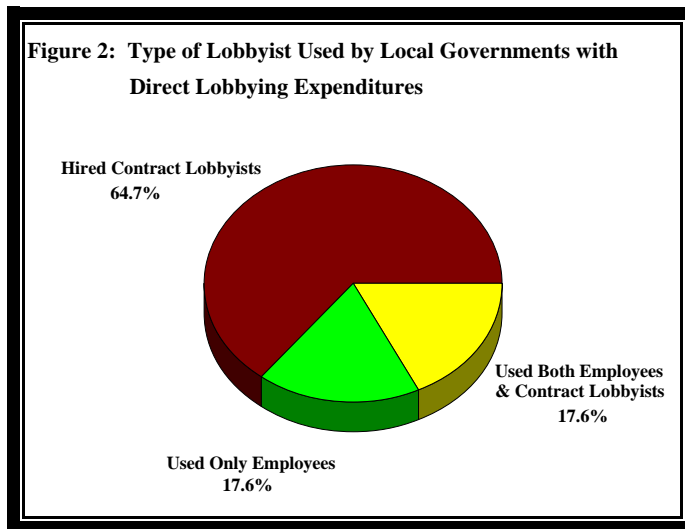

City of Minneapolis	\$339,749	Anoka County	\$128,784
Hennepin County	\$286,840	City of St. Paul	\$102,649
Metropolitan Airports Commission	\$138,482		

The Metropolitan Council and the Metropolitan Sports Facilities Commission reported direct lobbying expenditures in excess of \$100,000 in 1997, but not in 1998. The Metropolitan Council spent \$97,084 and the Metropolitan Sports Facilities Commission spent \$54,000 in 1998.

Direct lobbying expenditures by local governments included the use of hired contract lobbyists and local government employees. Approximately 58.7 percent (\$1,327,651) of the total direct lobbying expenditures were made to various contract lobbyists. The remaining 41.3 percent (\$932,399) of the expenditures were made to employees of 12 local governments to represent their interests before the legislature or a state administrative agency.

During 1998:

- ! 6 local units of government relied entirely upon their employees to represent them at the legislature:
- ! 22 units of government relied entirely upon contract lobbyists to represent their interests; and,
- ! 7 local units of government hired contract lobbyists and used their own employees for lobbying the legislature.

Other Lobbying Expenditures on Behalf of Local Governments

While 35 local governments opted to hire lobbyists to lobby on their behalf, most local governments relied on various local government organizations to represent their interests at the legislature.³ These local government organizations receive the majority of their funding from membership dues, although some receive other significant sources of revenue. Most local government associations provide administrative assistance in addition to lobbying services for their members. The amount of resources spent by these organizations on lobbying varies substantially from one organization to another.

The OSA survey requested that associations provide four pieces of information about their lobbying activities. The associations were asked for the total dues paid by their members, the total revenues of the association, the association's total lobbying expenditures, and the proportion (percentage) of their member's dues spent on lobbying.

³ Other than local government management associations, the local government organizations identified in this report do not include various professional organizations that lobby on behalf of specific professional occupations within local governments. For example, Education Minnesota is registered with the Campaign Finance and Public Disclosure Board. However, because the organization does not directly represent school districts or school district management personnel, its lobbying expenditures are not included in this report.

Twenty-two associations representing local governments reported lobbying expenditures for 1998. The total amount expended on lobbying activities totaled \$1,688,607. Of the \$1.7 million spent on lobbying, \$1,342,102 or 79.5 percent was funded through the dues of the association members. Indirect lobbying expenditures decreased \$302,773 or 18.4 percent from 1997.

Association lobbying expenditures decreased for a number of reasons. There were five fewer local government associations included in the 1998 report. Also, several of the associations reported a smaller share of their dues revenues were used for lobbying activities. A few of the associations indicated that their lobbying activities were funded not only by dues, but included other revenue sources such as donations and the sale of advertising in their publications. The associations reporting lobbying expenditures included:

- ! Ten organizations that represented the interests of cities;
- ! Three organizations that represented the interests of school districts;
- ! Three organizations that represented other local government interests; and,
- ! Six organizations that represented the interests of counties.

Local Government Organizations With the Highest Lobbying Expenditures

Among the 22 local government organizations that lobbied the legislature on behalf of their local government members, five organizations reported lobbying expenditures in excess of \$100,000.⁴ In the previous reporting period, eight organizations reported lobbying expenditures over \$100,000. The three organizations that reported lower lobbying expenditures in 1998 were the Association of Minnesota Counties, the Minnesota School Boards Association, and the Municipal Legislative Commission.

The organizations that reported lobbying expenditures exceeding \$100,000 in 1998 were:

League of Minnesota Cities	\$185,062	Schools for Equity in Education	\$121,970
Metropolitan Inter-County Association	\$160,256	Association of Metropolitan Municipalities	\$113,653
Coalition of Greater Minnesota Cities	\$122,828		

⁴ The amounts presented here reflect those expenditures that were exclusively funded through dues.

Many Local Governments Belong to Multiple Associations

The majority of reporting local governments (91.1%) belonged to two associations or less. The remaining 8.1 percent were members of between three and five associations. While there are no restrictions regarding the number of associations to which a local government may belong, local governments may want to evaluate whether they are receiving overlapping services.

Figure 3 details the distribution of local government memberships to associations.

Scope and Methodology of Report

This report on the lobbying expenditures of Minnesota counties, cities, school districts and metropolitan agencies is prepared in accordance with Minnesota Statutes §6.76 (1998). The statute requires that:

"(a) On or before January 31 of each year, all counties, cities, school districts, metropolitan agencies, regional railroad authorities, and the metropolitan council shall report to the state auditor, on forms prescribed by the auditor, their estimated expenditures paid for the previous calendar year to a lobbyist as defined in section 10A.01, subdivision 11, except payments to associations of local governments that are reported under paragraph (b), and to any staff person not registered as a lobbyist, over 25 percent of whose time is spent during the legislative session on legislative matters.

(b) Associations of local governments subject to this section shall report annually, on or before January 31, to the state auditor and the association's members the proportionate amount of each member's dues spent for lobbying purposes."

Many state policies, appropriation and tax laws established by the Minnesota Legislature and state administrative agencies have a direct impact on Minnesota's local governments. Therefore, it is appropriate that local governments work with the legislature and administrative agencies in the development of these laws and administrative processes. *This report is not intended to question the appropriate role of local governments in the state's legislative and administrative processes. Instead, it is intended to inform Minnesota citizens of the amount spent by their local governments to lobby the legislature.*

The Office of the State Auditor has collected and published this data for lobbying expenditures made by local governments since 1989. This is the second year that associations whose membership includes local governments were required to report their lobbying expenditures to the OSA. Because of the inclusion of local government associations, the data presented in this report are not comparable with reports prior to the 1997 report. This report summarizes local government lobbying expenditures during calendar year 1998.

In January of 1999, a lobbying reporting form was mailed to local governments that reported lobbying expenditures in 1997 (see Appendix A). The OSA also mailed a separate reporting form to local government associations (see Appendix B). The list of local government associations was developed by reviewing a list of all associations that were registered with the Campaign Finance and Public Disclosure Board (formerly known as the Ethical Practices Board). The lobbying expenditures are the amounts reported by local governments and local government associations. The Office of the State Auditor did not attempt to verify the accuracy of those amounts.
