**FOR THE YEAR ENDING
DECEMBER 31, 2001**

Description of the Office of the State Auditor

The Office of the State Auditor (OSA) serves as a watchdog for Minnesota taxpayers by helping to ensure financial integrity, accountability, and cost-effectiveness in local governments throughout the state.

Through financial, compliance, and special audits, the OSA oversees and ensures that local government funds are used for the purposes intended by law and that local governments hold themselves to the highest standards of financial accountability.

The OSA performs approximately 250 financial and compliance audits per year and has oversight responsibilities for over 4,300 local units of government throughout the state. The office currently maintains five divisions:

Audit Practice - conducts financial and legal compliance audits for local governments;

Government Information - collects and analyzes financial information for cities, towns, counties, and special districts;

Legal/Special Investigations - provides legal analysis and counsel to the Office and responds to outside inquiries about Minnesota local government law; as well as investigates allegations of misfeasance, malfeasance, and nonfeasance in local government.

Pension Oversight - monitors investment, financial, and actuarial reporting for over 700 public pension funds;

Tax Increment Financing (TIF) - promotes compliance and accountability in local governments' use of TIF through financial and compliance audits;

The State Auditor serves on the State Executive Council, State Board of Investment, Land Exchange Board, Public Employee's Retirement Association Board, Minnesota Housing Finance Agency, and the Rural Finance Authority Board.

Scope of Report

This report analyzes the financial operations of the 1,791 towns in Minnesota for the calendar year ended December 31, 2001.¹ The sources of the data used in preparing this report include the annual township financial reporting form, audits by public accountants, financial statements prepared by the town clerk or clerk-treasurer, county auditors' reports of indebtedness, and Minnesota Department of Revenue records. Data received from the Department of Revenue includes state shared tax distributions, grants, aids, taxable valuations, and tax levies.

Townships represent the most common and grassroots form of municipal government in Minnesota. In 2001, there were 1,791 townships compared to 855 cities and 87 counties. The 2001 population estimates from the State Demographer shows that 941,133 individuals or about 19 percent of the state's population reside in towns. Almost half of all towns have less than 300 residents while about 12 percent have more than 1,000 residents. Town populations range from 11,293 in Ramsey County's White Bear Township to 3 in Kittson County's North Red River Township.

The primary function of towns is the maintenance of roads and bridges. Township roads comprise about 43 percent of the total number of roads in the state. Taxes, which account for over half of all town revenues, are the primary source of revenues for towns. Taxes account for over 50 percent of town revenues compared to 38 percent for counties, 38 percent for large cities, and 27 percent for small cities. Taxes will most likely account for a larger share of township revenues in the future as 2001 was the last year of Local Government Aid (LGA) for towns.

The data presented in this report reflect the activities of both governmental funds and proprietary funds. The governmental funds consist of the General, Special Revenue, Capital Projects, and Debt Service Funds. The proprietary funds are those that report the financial operations of municipal public service enterprises such as water or electric utilities owned by the town. Tables 1 and 2 summarize the financial condition of all Minnesota towns. Tables 3 and 4 present this data by individual town.

Table 5 lists by individual town the bonded and other long-term debt outstanding as of December 31, 2001. Other long-term debt refers to liabilities such as long-term lease agreements, installment purchase contracts, and notes.

An analysis of unreserved fund balances is not presented in this report. The majority of towns use a cash basis of accounting. The others use a modified accrual basis of accounting. Those towns using a cash basis of accounting report a single cash balance for all governmental funds at the end of the fiscal year. Towns using a modified accrual basis of accounting report separate fund balances for all of their governmental funds and denote the amounts that are reserved and unreserved. Because of these differences among towns, a comparative analysis of unreserved fund balances is not appropriate.

In addition to this publication, the underlying databases for State Auditor reports are available for downloading through the OSA web site. The OSA web site address is www.auditor.state.mn.us.

¹ The number of Minnesota towns increased by one between 2000 and 2001 due to the addition of Camp 5 township in St. Louis County.

Overview

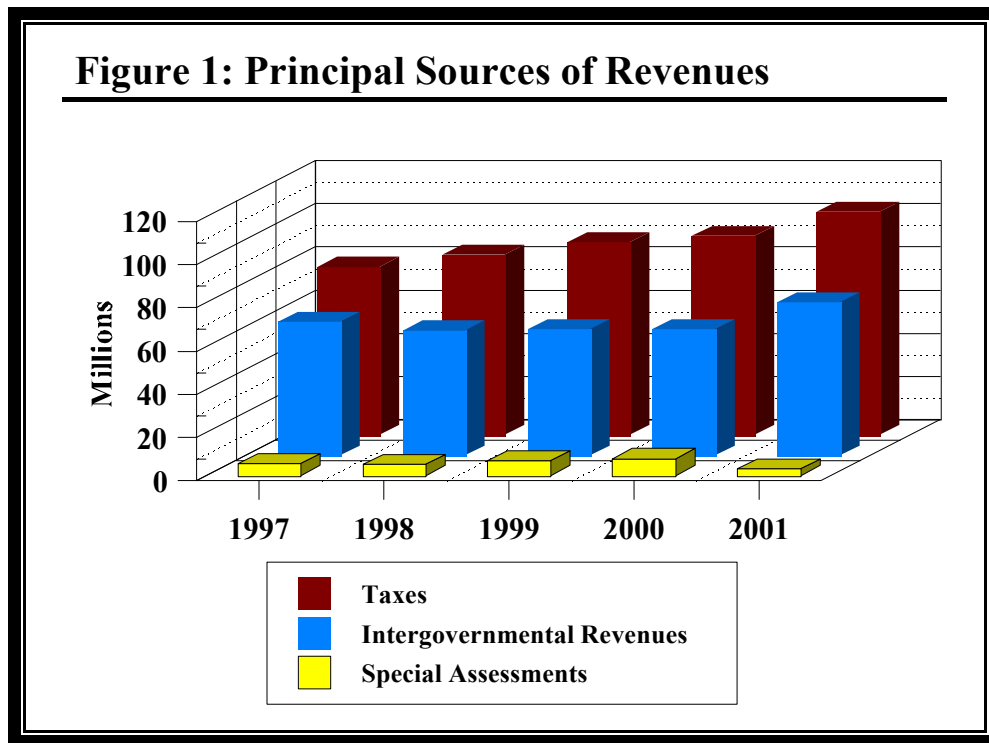

2001 Finances of Towns

In 2001, Minnesota's towns collected total revenues of \$202.3 million. This represents an increase of 11.9 percent over the total revenues collected in 2000.² Minnesota towns spent \$208.7 million to provide public services. This represents an increase of 12.1 percent over 2000.

Total Revenues

Towns raised \$202.3 million to finance public services in 2001. The principal sources of revenues for towns were: taxes, intergovernmental revenues, and special assessments. These three sources of revenues accounted for almost ninety percent of town revenues in 2001. The shares of total governmental revenues generally vary only slightly from year to year. However, federal grants as a percent of total revenues jumped from 1.1 percent in 2000 to 5.4 percent in 2001. The large increase was the result of the town of Ida receiving a \$7.2 million grant for a wastewater treatment facility. The grant represented 67 percent of federal grant revenue for towns in 2001.

Figure 1 provides a comparison of the principal sources of revenues for the five year period of 1997 to 2001. The underlying data for Figure 1 is presented in Table 1.

² There are 1,791 towns in Minnesota. Twenty-two towns failed to submit a financial reporting form. Total revenues exclude borrowing and transfers from other funds.

Figure 2 provides a comparison of taxes, intergovernmental revenues, and special assessments as a percent of total revenues for the years 1997 through 2001.

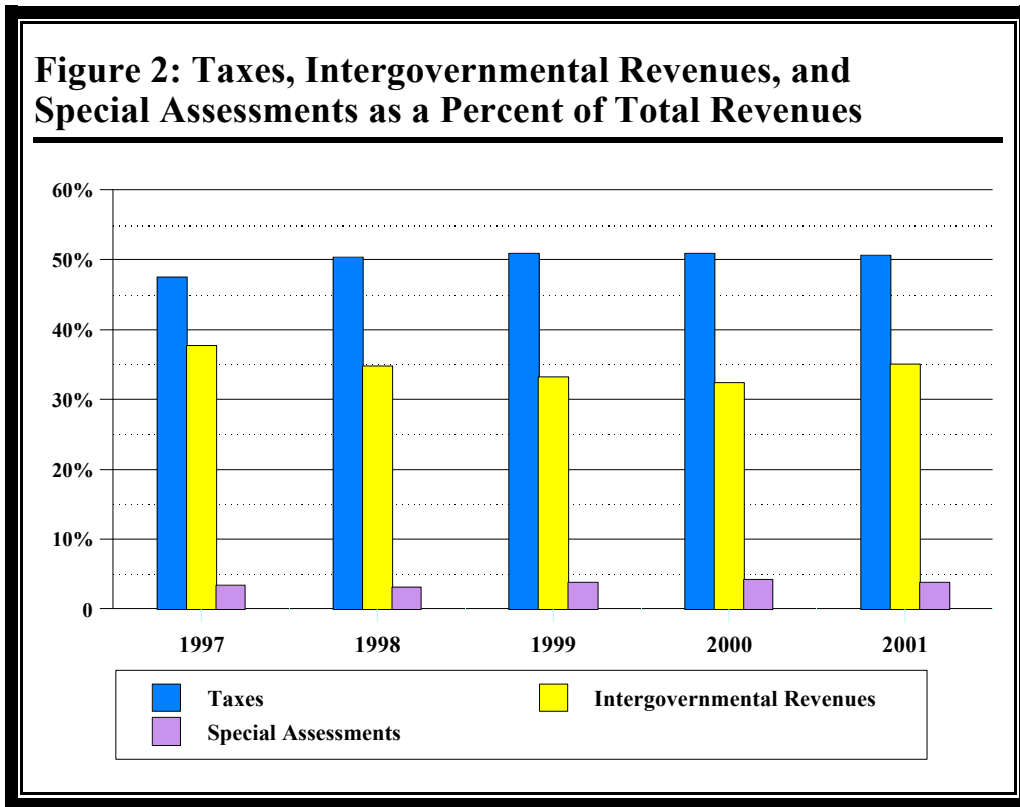

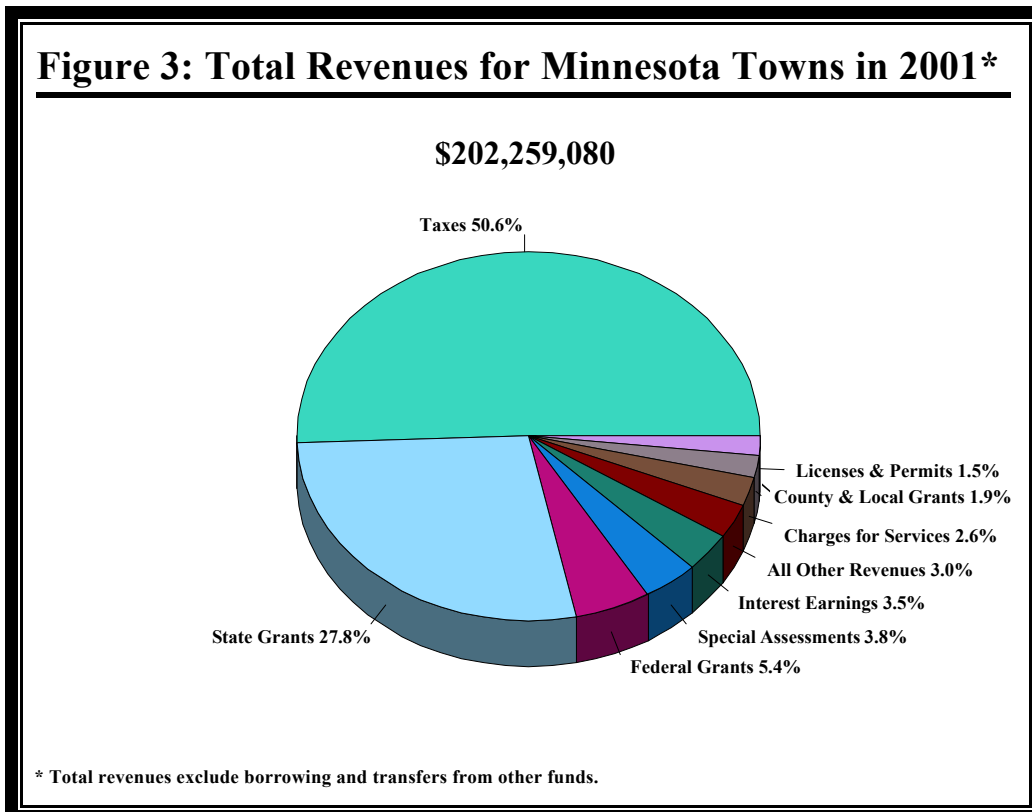

Figure 3 illustrates the portion of total revenues that each source provides.

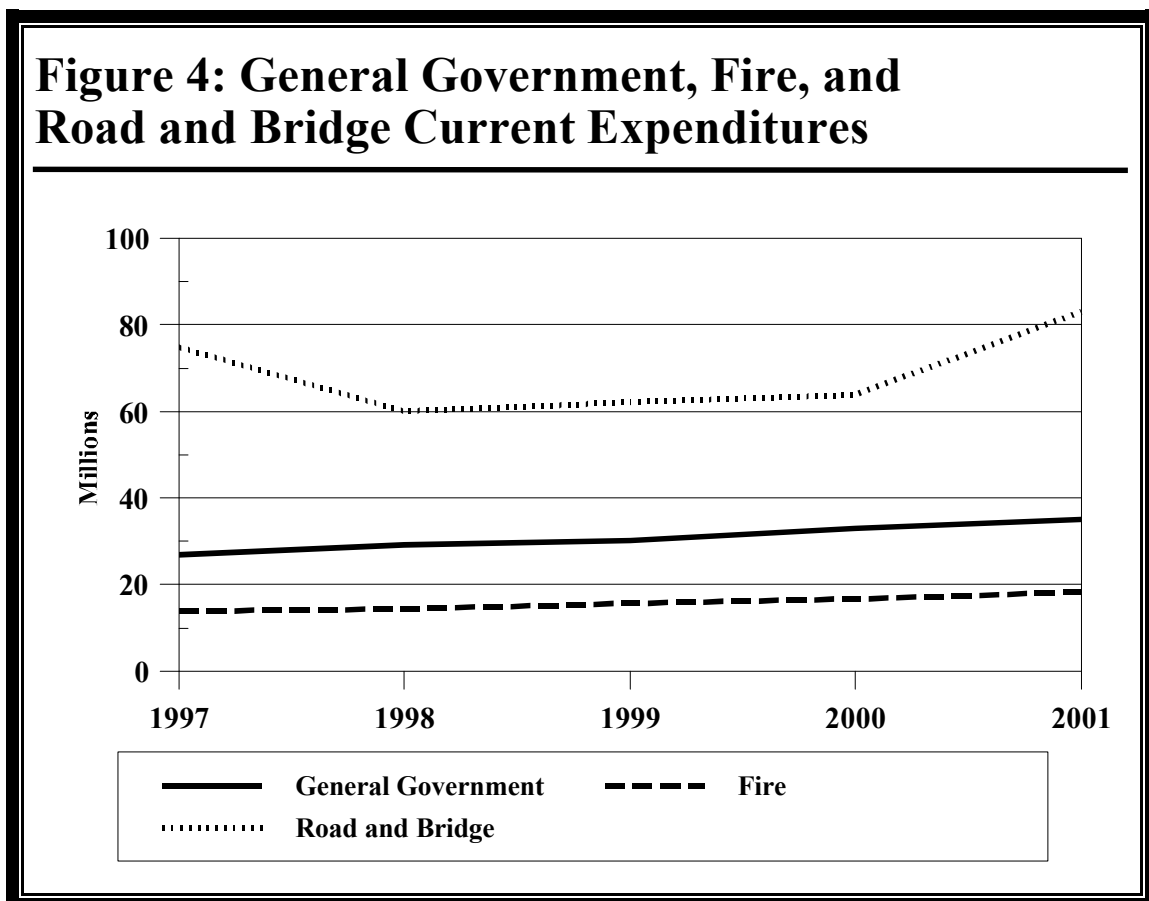

Total Expenditures

Minnesota towns spent a total of \$208.7 million in 2001. This was an increase of 12.1 percent over the amount spent in 2000. Of the \$208.7 million spent, \$151.5 million represented current expenditures; \$44.3 million represented capital outlays; and \$12.9 million represented debt service payments.

Current Expenditures

Minnesota towns had current expenditures of \$151.5 million in 2001. This represented an increase of 18.7 percent over 2000. Current expenditures exclude capital outlays, debt service, and transfers to other funds. The amount spent on road and bridge activities was double that of any other current expenditure, and was the fastest growing category of current expenditures between 2000 and 2001. Spending on roads and bridges grew 29.9 percent over the two-year period. Much of the increase was attributable to heavy snow falls that doubled the snow plowing budgets of towns statewide.

Figure 4 provides a comparison of general government, fire, and road and bridge current expenditures for the years 1997 through 2001. The underlying data for this chart is presented in Table 2.

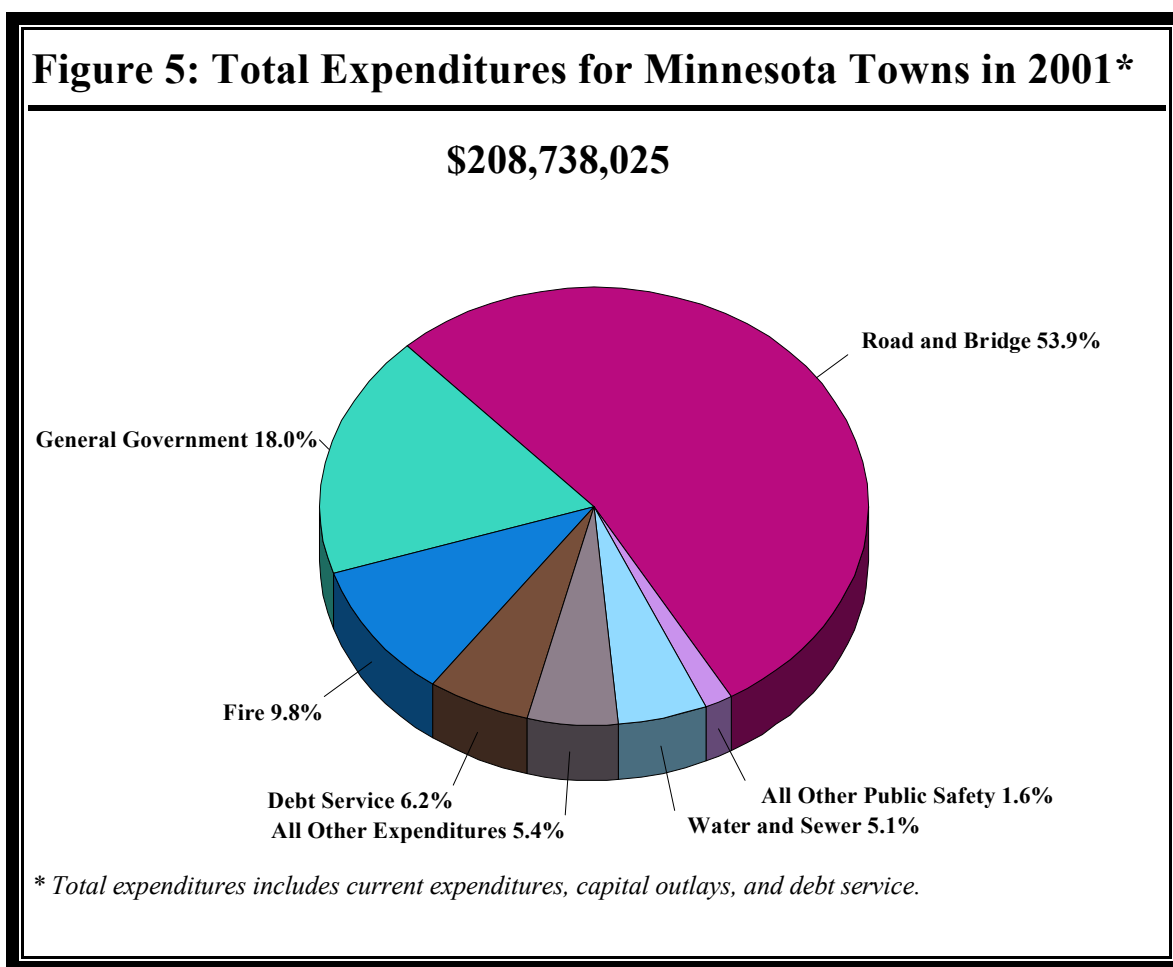

Capital Outlay and Debt Service

Capital spending totaled \$44.3 million in 2001. This represents an increase of 5.3 percent over 2000. The largest category of capital expenditures for towns was roads and bridges, accounting for two-thirds of all capital outlays. Capital spending relates to the acquisition or construction of major capital assets such as buildings and roads. Capital assets have initial lives extending beyond a single reporting period.

Towns had debt service expenditures of \$12.9 million in 2001. This represents a decrease of 21.3 percent from 2000. Debt service expenditures include the principal and interest payments on outstanding indebtedness. Expenditures in this category can vary widely. Such variations are caused either by the refinancing of existing debt or the issuance of new debt. The large decrease in debt service expenditures between 2000 and 2001 was largely attributable to the town of Oakport in Clay County. The town issued refunding bonds in 2000 that allowed it to make principal payments of over \$6.3 million. In 2001, Oakport Township had debt service payments of \$367,995.

Figure 5 provides a summary of total expenditures by category.

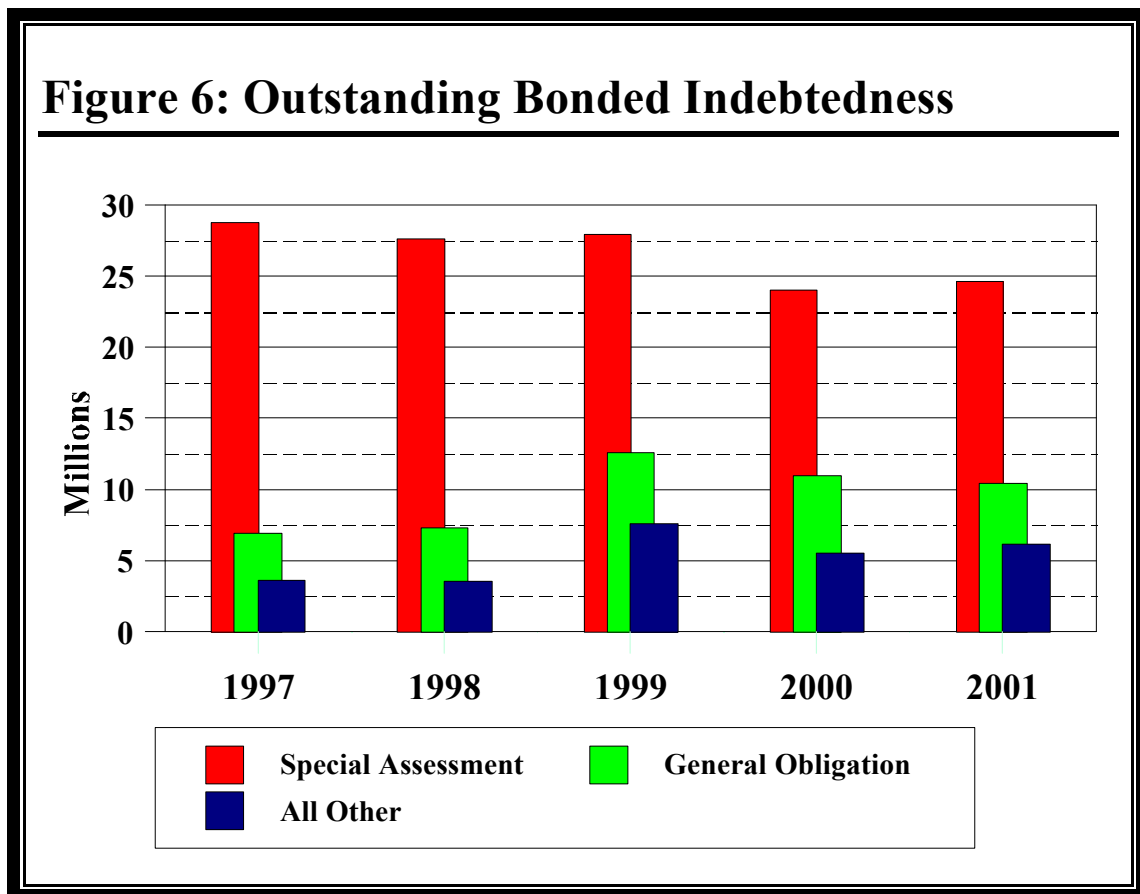

Indebtedness

Towns incur long-term debt through the issuance of bonds and notes, certificates of indebtedness, and tax anticipation certificates. Long-term lease agreements are also classified as long-term debt. Towns may only borrow to finance capital projects and purchases. They are restricted by law from borrowing for current expenses. The amount of outstanding debt affects a towns' current expenditures because they must have sufficient funds available to make principal and interest payments to service the debt.

During the year, bonds totaling \$7.4 million were issued and \$5.8 million were retired, leaving \$41.2 million outstanding at the end of 2001. Other long-term indebtedness outstanding at the end of 2001 totaled \$30.6 million. Towns reported \$129,953 in short-term indebtedness. Bonded debt grew 1.6 percent while other long-term debt rose 51.8 percent. Other long-term debt rose primarily because of borrowing for waste water treatment facilities in three towns. An analysis that excluded the three towns showed that other long-term debt rose 15.5 percent.

Figure 6 provides a summary of bonds outstanding, classified by type of bond for the years 1997 through 2001. The large drop in debt between 1999 and 2000 that is evident in figure 6 was, in part, due to the annexation of the town of Forest Lake which had over \$2 million in bonded debt.
