2020 Summary Budget Data

Together With

2019 Revised Summary Budget Data

Description of the Office of the State Auditor

The mission of the Office of the State Auditor is to oversee local government finances for Minnesota taxpayers by helping to ensure financial integrity and accountability in local governmental financial activities.

Through financial, compliance, and special audits, the State Auditor oversees and ensures that local government funds are used for the purposes intended by law and that local governments hold themselves to the highest standards of financial accountability.

The State Auditor performs approximately 100 financial and compliance audits per year and has oversight responsibilities for over 3,300 local units of government throughout the state. The office currently maintains five divisions:

Audit Practice – conducts financial and legal compliance audits of local governments;

Government Information – collects and analyzes financial information for cities, towns, counties, and special districts;

Legal/Special Investigations – provides legal analysis and counsel to the Office and responds to outside inquiries about Minnesota local government law; as well as investigates allegations of misfeasance, malfeasance, and nonfeasance in local government;

Pension – monitors investment, financial, and actuarial reporting for Minnesota's local public pension funds; and

Tax Increment Financing – promotes compliance and accountability in local governments' use of tax increment financing through financial and compliance audits.

The State Auditor serves on the State Executive Council, State Board of Investment, Land Exchange Board, Public Employees Retirement Association Board, Minnesota Housing Finance Agency, and the Rural Finance Authority Board.

Office of the State Auditor 525 Park Street, Suite 500 Saint Paul, Minnesota 55103 (651) 296-2551 state.auditor@osa.state.mn.us www.auditor.state.mn.us

Table 1 – Minnesota Cities Summary of Budgeted Revenues and Expenditures	9
Appendix 1 – Minnesota Cities Summary Budget Information	13
Appendix 2 – Cities Failing to Report or Submitted Incomplete Summary Budget Information	229

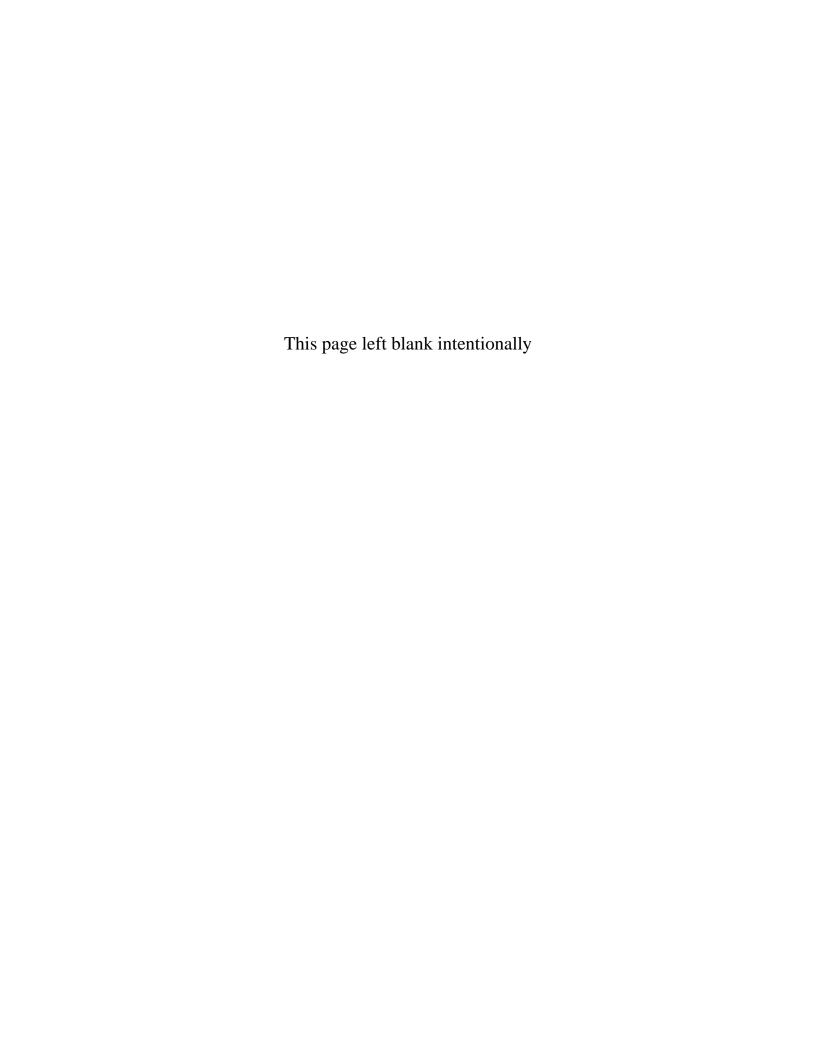

Scope

This publication presents 2019 (revised) and 2020 budget data for Minnesota cities. The data presented here reflects unaudited budgeted revenues and expenditures reported by cities to the Office of the State Auditor (OSA) as required by Minn. Stat. § 6.745, subd. 1. Eighty-three cities either failed to provide their budget information or submitted incomplete information to the OSA. The cities are listed in Appendix 2 (page 229).

The form used to collect this information requested that cities provide two types of data: 2019 budget and 2020 budget. The 2019 budgets are the 2019 budgets adopted by city councils in November and December of 2018. The 2020 budgets are the 2020 budgets adopted by city councils in November and December of 2019.

On Table 1, the Revised 2019 column reflects the 2019 budgets adopted by the city councils in November and December of 2018 and, for some cities, newly submitted 2019 budgets or revised 2019 budgets submitted with their 2020 budgets. The revised 2019 budgets may differ from what the city submitted to the OSA last year for several reasons, such as the inclusion of additional budgeted funds, new staff completing the form, or the correction of errors.

The data in this report is best used as a tool to help review budgeting decisions for the years 2019 and 2020. The budget represents a plan, reported by the city, for the coming year. Rarely do actual revenues and expenditures match the amount budgeted. In addition, the data reported does not represent all city revenues and expenditures. Cities report budget data only for funds for which an annual budget is adopted. For cities with funds where annual budgets are not adopted, the city would have more revenues and expenditures than included in this report. Also, the revenues and expenses of city public service enterprises are not included. The inclusion of enterprise funds would significantly alter the revenue and expenditure trends of cities. Because of the limitations of budget data, as it is a plan, the OSA recommends using the financial information provided in our publication, *Minnesota City Finances*, which are the actual revenues and expenditures.

Category Definitions

Cities reported budget data only for the Governmental Funds for which the city adopted annual budgets. Enterprise Funds, such as sewer and water utilities, are not included in this report.

Adopted Budgets for Governmental Funds

The Governmental Funds include the General Fund (GF), which is the general operating fund of the city; Special Revenue Funds (SR), which are funds established to record activity for a specific purpose; Debt Service Funds (DS), which are for the principal and interest payments on indebtedness; and Capital Projects Funds (CP), which are used for major construction projects or acquisition of assets.

Governmental Revenues

Taxes. Cities receive revenues from several types of taxes. In addition to levying property taxes, cities generate revenues from local option taxes, such as hotel/motel taxes, franchise taxes (public utilities), gambling taxes, gravel taxes, and sales and use taxes. Cities that have established tax increment financing (TIF) districts also receive tax increment revenue.

- *Property Taxes*. Property taxes are taxes levied on an assessed valuation of real and/or personal property by the city government. The budgeted property taxes category includes fiscal disparities.
- *Tax Increments*. Cities generate tax increment revenue when they establish TIF districts. In a TIF district, a city reserves the use of a portion of the property taxes collected from parcels in the district to pay the costs of development and redevelopment, rather than the general services of the city, county, and school district.
- *All Other Taxes*. This category of budgeted revenues accounts for taxes, such as franchise taxes, hotel/motel taxes, sales and use taxes, and gravel taxes. Cities must receive legislative approval before enacting local option taxes, such as hotel/motel taxes and sales and use taxes. The revenues are generally dedicated to specific public facilities, such as convention centers and arenas.

Special Assessments. These budgeted revenues refer to levies made against certain properties to defray all or part of the costs of a specific improvement, such as new sewer and water mains, deemed to benefit primarily those properties. The amount includes the penalties and interest paid on the assessments. Cities also use special assessments for debt service payments.

Licenses and Permits. This category accounts for budgeted revenues derived from fees collected for the issuance of both business and non-business licenses and permits. These budgeted revenues reflect receipts from liquor licenses, cigarette licenses, pet licenses, other business licenses, street use permits, building permits, and other non-business licenses and permits.

Intergovernmental Revenues. These are budgeted revenues received from other governments in the form of grants, entitlements, or shared revenues.

- *Federal Grants*. Federal grants include estimated amounts the city expects to receive from the federal government for emergency preparedness, transit, highways, and urban redevelopment.
- State General Purpose Aid. Budgeted general purpose aid has no restrictions on its use and includes, among other things, Local Government Aid (LGA) and Market Value Credits.
- State Categorical Aid. Budgeted categorical aids are revenues received for a specific purpose, such as streets and highways, fire relief aid, and flood control. This category can fluctuate widely because some revenue sources commonly support capital projects that are short-term or cyclical in nature.
- *Grants from County/Other Local Units*. These are estimated revenues generally received from counties, other cities, and townships for their share of a capital project.

Charges for Services. These budgeted revenues reflect fees for activities of the Governmental Funds, such as rent of the city hall or community center, police and fire contracts, fire calls, recreation fees, and park dedication fees.

Fines and Forfeits. These budgeted revenues reflect receipts from the payment of penalties for law violations, non-observance of contracts, and forfeited deposits.

Interest on Investments. These budgeted revenues reflect interest earned on checking and savings accounts, CDs, money market funds, and bonds.

All Other Revenues. These are budgeted revenues that cannot be classified in one of the other categories. These revenues include refunds, reimbursements, donations, and lease payments.

Other Financing Sources

- **Proceeds from Bond Sales.** This amount reflects the anticipated proceeds from the sale of bonds.
- *Other Financing Sources.* The sale of fixed assets is included in this category.
- *Transfers from Other Funds*. This category reflects budgeted transfers of resources between funds. Examples include transfers from the General Fund to a Capital Projects Fund for authorized construction and transfers from an Enterprise Fund to the General Fund to finance General Fund expenditures.

Governmental Expenditures

Current Expenditures

Budgeted current expenditures include salaries and benefits, utilities, maintenance and repairs, as well as operating expenses such as fuel, supplies, and insurance.

- *General Government*. General government budgeted expenditures reflect the administration costs of city governments, including salaries of city officials and maintenance of buildings.
- *Public Safety*. These budgeted expenditures reflect the costs related to the protection of persons and property. This category combines several distinct city departments, including police, fire, ambulance services, and other protection. Other protection includes building inspections, animal control, and flood control.
- Streets and Highways. These budgeted expenditures reflect the costs associated with the maintenance and repair of local highways, streets, bridges, and street equipment. Common expenditures include patching, seal coating, street lighting, street cleaning, and snow removal. Expenditures for road construction are not included in current expenditures but are accounted for as capital outlay.
- Sanitation. These budgeted expenditures reflect the costs of refuse collection and disposal, recycling, and weed and pest control. Some cities provide sanitation services through Enterprise Funds.
- *Human Services*. These budgeted expenditures are for activities designed to provide public assistance and institutional care for individuals economically unable to provide for themselves. Most human services are provided through the counties.
- *Health*. These budgeted expenditures are for the maintenance of vital statistics, restaurant inspection, communicable disease control, and various health services and clinics.
- *Culture and Recreation*. These budgeted expenditures reflect the costs of libraries, park maintenance, mowing, planting, and removal of trees. Recreation expenditures include festivals, bands, museums, community centers, cable TV, baseball fields, and organized recreation activities.
- Conservation of Natural Resources. These budgeted expenditures are for the conservation and development of natural resources. These include agricultural and forestry programs and services, weed inspection services, and soil and water conservation services.

- *Economic Development and Housing*. These budgeted expenditures are for development and redevelopment activities in blighted or otherwise economically-disadvantaged areas. Activities may include low-interest loans, cleanup of hazardous sites, rehabilitation of substandard housing and other physical facilities, and other assistance to those wanting to provide housing and economic opportunity within a disadvantaged area.
- All Other Current Expenditures. These are budgeted expenditures not classified elsewhere. Examples include airport expenditures, cemeteries, unallocated insurance, unallocated pension costs, and public transportation costs.

Capital Outlay

These budgeted expenditures include the purchase of equipment, machinery, and land; construction or permanent improvements of buildings; and street construction.

- Streets and Highways Capital Outlay. This category includes budgeted expenditures for road and bridge construction projects, including major rehabilitation and improvement projects for existing roads and bridges.
- All Other Capital Outlay. These budgeted expenditures include the purchase of equipment, machinery, and land, and the construction or permanent improvement of buildings.

Debt Service

- *Principal*. This category includes budgeted principal payments on bonded debt and budgeted principal payments for other long-term and short-term debt. (It does not include debt payments made by Enterprise Funds.)
- *Interest and Fiscal Charges*. This category includes all budgeted interest payments and fiscal charges paid in the Governmental Funds.

Other Financing Uses

- Other Financing Uses. These are anticipated refunding bond proceeds deposited with an escrow agent and invested until they are used to pay principal and interest on the old debt at a future time and for remittance to other agencies.
- *Transfers to Other Funds*. This category reflects budgeted transfers of resources between funds. Examples include transfers from the General Fund to a Capital Projects Fund for authorized construction and operating subsidies from the General Fund to an Enterprise Fund, such as transit.

Other Information

- *Increase/(Decrease) in Fund Balance*. This category shows budgeted increases or decreases in the unrestricted fund balance. If the city intends to add to the unrestricted fund balance in 2020, that would be shown as an increase in the unrestricted fund balance. If the city intends to use a portion of its unrestricted fund balance to finance projected expenditures, it would be shown as a (decrease) in the unrestricted fund balance.
- Net Unrealized Gain or (Loss) from Investments. This shows the net increase or decrease in the market value of investments held as of December 31, 2019. This calculation is the difference between the market value of the investment on January 1 or when purchased, and the market value of the investment on December 31.
- *Total Property Tax Levy*. Property taxes are taxes levied on an assessed valuation of real and/or personal property by the city government. The property tax levy is for all funds, including Enterprise Funds.

^{*}The column titled Revised 2019 reflects the 2019 budgets adopted by the city councils in November and December of 2018, and, for some cities, newly submitted 2019 budgets and revised 2019 budgets submitted with their 2020 budgets. The revised 2019 budgets may differ from what the city submitted to the OSA last year for several reasons, such as the inclusion of additional budgeted funds, new staff completing the form, or the correction of errors.

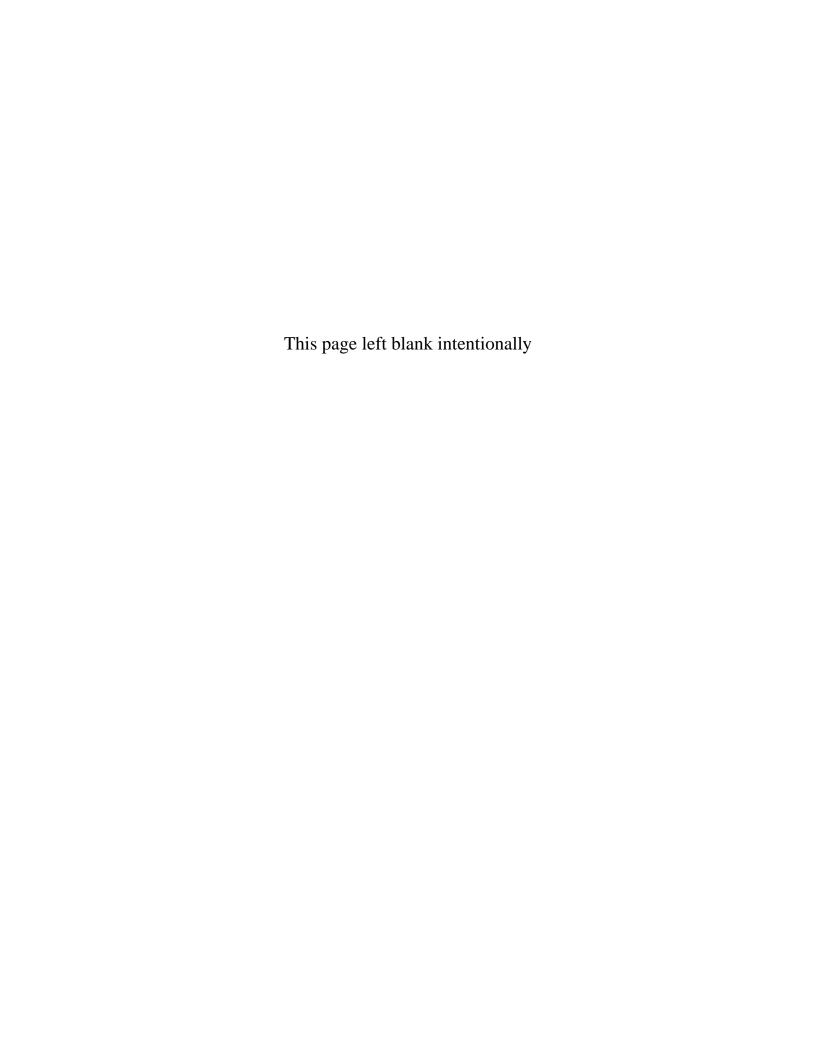

^{**}Total Property Tax Levy refers to the total of all property tax bills within the city, whereas, Property Taxes refers to the anticipated amount of taxes collected.

^{***}Due to rounding, the sum of the percentages may be more or less than 100 percent.
